MJ Torres introduced the Bioidentical Hormone Replacement Therapy (BHRT) through the real life experiences and stunning results showcased by guest Ms. Connie Quirino.

As an oil painter, Connie spends a lot of time outdoors for site inspections and capturing her chosen scene. Ms. Connie Quirino was pleased to share that her skin was regaining moisture and noted that she now sleeps better. She's discovered a revived zest for life and a more mindful approach to wellness to be able to pursue her passions and go about her day-to-day activities.

The Bioidentical Hormone Replacement Therapy (BHRT) focuses on hormones and their important role in our growth, metabolism, reproduction and other physical functions. As we grow older, our body produces reduced levels of hormones that make us prone to disorders and physical discomforts and challenges. BHRT is designed to achieve the elusive balanced levels of hormones needed to enable you to look good and even feel even better; to remedy issues including fatigue, dry skin, chronic insomnia, difficulty losing weight and memory gaps to name a few. The package features supplementary treatments that will open gateways to the best version of you. The package features pre- and post-screening, IV nutrition, Vit D3, Colonics and BHRT Products (Progesterone, Estrogen, Thyroid and Testosterone).
